CAREER OBJECTIVE

Motivated Computer Science Engineering student with a strong foundation in Python, Data Structures, OOPS, and Web Development, seeking an entry-level software development opportunity where I can apply my technical skills to build scalable and impactful applications. Passionate about problem-solving, AI-driven solutions, and continuous learning, I aim to contribute effectively to a dynamic organization while enhancing my expertise and growing as a technology professional

EDUCATION

B. Tech – **Computer Science and Engineering (2022–2026)**
QIS College of Engineering and Technology, Ongole
CGPA: 8.54 (81.13%)

Intermediate (MPC) (2020–2022)
Sri Chaitanya Junior College, Ongole
CGPA: 8.4 (79.8%)

SSC (2019–2020)
Montessori Public School, Ongole
CGPA: 10.0 (95%)

TECHNICAL SKILLS

- Programming: Python, C, Java

- Web: HTML, CSS, JavaScript, Flask

- Databases: MySQL

- Core Concepts: DSA, OOPS, SQL, Networking

- Tools: GitHub, VS Code

PROJECTS

Handcraft E-Commerce Website: Built a full-stack web application enabling artisans to sell traditional handicrafts globally with user authentication and database integration.

Sign Language Translation App: Developed a real-time gesture recognition system that converts sign language into text and speech using OpenCV, Media Pipe, and deep learning.

IoT-Based Smart Dustbin: Designed an automated waste management system using ultrasonic sensors to detect garbage levels and send real-time notifications.
